	* This question paper cor		*					
	* Answer all questions on	this paper	itself in acco	ordance with	the instruct	ions give	n for ea	ich question
•	From the answers given from No. 1 to 5 and w				r that suits	the blan	k in eac	ch question
1.	The total land extent that (64610 / 65610 / 66610	at belongs	to Sri Lanka	is about	•••••		kı	m^2 .
2.	According to the structu (Crust / Mantle / Core)	ure of the	Earth, Sial	layer belong	gs to the .			
3.	An example for a river (Nile / Thames / Rhine)		ates from a	spring is				
4.	A district in Sri Lanka wh (Ratnapura / Kegalle / H		tant for mid-	country tea c	ultivation is			
5.	The majority of the laboresearchers is a special (motor vehicle / iron an	characteristi	c of the					nicians and
•	Read each statement from incorrect.	om No. 6	to 10 and c	eircle 'C' if	it is corre	ect and	circle "	W' if it is
6.	The establishment of incostep taken to develop co			ous regions		ka is a		ive C/W
7.	The area in the vicinity	of Puttalan	n Lagoon fa	mous for pr	awn culture			C / W
8.	Per capita gross national	product is	a recent me	asure of dev	velopment.			C / W
	The major factor that tri				dormanion s			C / W
			199	The Marian				
10.	A special characteristic of the countries where cotto			istry in the	world is it	is locate	d only	C / W
•	In questions from No. 1	1 to 19 fill	the blanks	with suitable	e words.			
11.	The shallow strip of s	sea that ex	tends from	the coastli	ne towards	the oc	ean is	known as
		0						
12.	The	sc	oil which is	abundant in	n organic n	natter is	more s	suitable for

- 13. The research institute that provides instructions and services in relation to the rubber cultivation in Sri Lanka is located at
- 15. The average situation of the atmosphere prevalent at least over a period of 30 years is known as
- To answer the questions from No. 16 to 19, use the graph given below.

The graph given below shows the amount of fish production in Sri Lanka in the three sectors Deep sea, Coastal and Fresh water during the period 2009 to 2018.

Source: Central Bank of Sri Lanka, Economic and Social Statistics of Sri Lanka - 2019

- 16. A highest amount of fish production by coastal fisheries industry took place in the year
- 17. A highest amount of fish production by deep sea fisheries industry took place in the year
- 18. A highest amount of fish production in all three fisheries sectors together took place in the year
- 19. What is the fisheries sector that shows a continuous growth in fish production during the above mentioned ten-year period?
- In questions from No. 20 to 23 two columns are shown as 'A' and 'B'. On the doted line write the number of the answer that shows the correct order when the information given in column 'A' is matched with the information given in column 'B' provided against it.

A - island

- 20. 'A' Physical feature Nature of the physical feature
 - 1. Rocky
 - 2. Madagascar B - mountain range 3. Titikaka C - plateau
 - D lake
 - (1) A, B, C

- (2) B, A, D (3) B, C, D (4) C, B, D (.....)

Geography II

- * This paper consists of two parts I and II.
- * The question in Part I is compulsory. All three parts of it, namely (a), (b) and (c) should be answered.
- * Four questions from Part II should be answered.
- * The total number of questions to be answered is five.

Part I

1. (a) Study the 1: 50000 topographic map section of Sri Lanka provided to you and answer the following questions based on it. In answering, use the paper (page No. 8) provided to you.

For questions from No. (i) to (v), write the appropriate answer selecting from the parentheses.

(i) What is shown by A - B line?

(Steep slope / Convex slope / Concave slope)

(01 mark)

(ii) What is the feature indicated by letter ©? (Forest / Scrub / Grassland)

(01 mark)

(iii) What is the feature shown by $\bigcirc - \bigcirc$ line? (Water divide / Gap / Water gap)

(01 mark)

(iv) What is the area where the highest place in the map section is located? (North-east / South-east / Central)

(01 mark)

(v) What is the type to which the railway line extending from the south-west to the north-east of the area belong?

(Narrow / Broad Gauge Single / Broad Gauge Double)

(01 mark)

(vi) What is the commercial crop distributed in the area within the square indicated by letter E?

(01 mark)

(vii) What is the distance between the two railway stations located along the railway line in kilometers?

(01 mark)

(viii) Name two institutions that have been given in symbols (except the railway station) that provide general services located within the quadrilateral P.

(02 marks)

(ix) What is the main physical factor that has influenced the distribution of cultural features such as the railway line, the main road that extends in parallel to it and the administrative boundary found within the map area?

(01 mark)

(b) Carefully study the world map provided to you and answer the questions given below. In answering, use the column of boxes adjacent to the map (page No. 9).

Three English letters are given in front of each question from (i) to (v). Select the letter that indicates the correct answer from the world map and write it in the adjacent box.

- (i) Arabian plateau Q. R. S
- (ii) Yukatan peninsula ①, ①, ®
- (iii) Congo river U, W, W
- (iv) City of Beijing A, B, C
- (v) New Zealand D, M, N

(05 marks)

(c) Carefully study the map of Sri Lanka provided to you and answer the questions given below. In answering, use the column of boxes located adjacent to the map of Sri Lanka (Page No. 9).

Three English letters are given in front of each question from No. (i) to (v). Select the letter that indicates the correct answer for each question from the map and write it in the adjacent box.

- (i) Point Pedro A, B, C
- (ii) A place where a coastal cliff is located O, P, O
- (iii) Kumana Birds Sanctuary U, W, W
- (iv) Location of Kahatagaha and Kolongaha mines where graphite is located ©, H, T
- (v) The island where the 'Thambapawani' wind power station was commenced recently D, E, E

(05 marks

Part II

- 2. (i) Name
 - (a) a biotic factor
 - (b) an abiotic factor respectively, that affect the process of the biosphere.

(02 marks)

(ii) State three boundaries of the biosphere with examples.

(03 marks)

(iii) State **three** threats arisen due to human activities that affect the existence of the biosphere and describe **one** of them.

(05 marks)

- (i) Write down the countries respectively within which each of the following river valleys are located where paddy is cultivated outside Asia.
 - (a) Po river valley
 - (b) Murray Darling river valley

(02 marks)

- (ii) State three reasons for the significance of paddy cultivation in the economy of Sri Lanka. (03 marks)
- (iii) (a) State two advantages in using organic fertilizers in paddy cultivation in Sri Lanka.
 - (b) State a problem in using organic fertilizer in paddy cultivation and describe a measure that could be adopted to solve it.

(05 marks)

4. (i) In the adjoining map section of Sri Lanka, write the names of the

fisheries harbour indicated by letter (A) and fresh water fish breeding centre indicated by letter (B) respectively. (02 marks)

- (ii) State three reasons for the significance of the fisheries industry in the economy of Sri Lanka.
- (iii) (a) State **two** ways how ocean water becomes polluted.
 - (b) Describe with two factors how the pollution of ocean water unfavourably affects the fisheries industry of Sri Lanka.

(05 marks)

5. (i) Name two Asian countries which are important for the motor vehicle industry.

(02 marks)

(ii) State three recent trends in the motor vehicle industry.

(03 marks)

(iii) State three problems encountered by the tourism industry in Sri Lanka at present and describe a measure that could be adopted to overcome one problem.

(05 marks)

6. (i) Name two major types of forests distributed in the world.

(02 marks)

(ii) State three problems encountered by the forests and wildlife at present.

(03 marks)

(iii) Suggest **three** measures that could be adopted to conserve the forests in Sri Lanka and explain how you could participate in the implementation of one of those measures. (05 marks)

(03 marks)

- 7. (i) In the adjoining map section identify the name of the densely populated region indicated by letter

 and the name of the sparsely populated region indicated by letter

 B respectively. (02 marks)
 - (ii) State **three** problems emerged at present in the developing countries of the world due to rapid growth of population.
 - (iii) State **three** recent salient features that could be identified in the population of Sri Lanka and selecting one of them, describe how it affects the development of Sri Lanka.

 (05 marks)

- 8. (i) Provide an example for each of the hazard types given below.
 - (a) Biological hazards

(02 marks)

- (b) Geological hazards
- (ii) Name three river valleys in Sri Lanka susceptible to often flooding.

(03 marks)

(iii) State **three** measures that could be adopted to mitigate the flood hazard in Sri Lanka (05 marks) and explain **one** of them.
